---

Software engineer with a strong background in Javascript, React, Functional and Object-Oriented Programming, RESTful APIs, Git, and Responsive Design.

## PROFESSIONAL EXPERIENCE

### Amazon | Software Development Engineer Apprentice | Mar 2019 - Present

- Work on the Amazon Web Services Payments & Fraud team
- Design, build and maintain production distributed-system software

### Bethel International, Inc. | Webmaster | Oct 2017- Mar 2018

- Used JavaScript to add a chatbot to the website, bringing staff response times of customer inquiries down from 1-2 days to 24 hours or less
- Led the design of print catalog for 2018 floor show events

## APPLICATIONS

### ToneDev | Full-Stack Software Engineer | React, Express, MySQL, SASS, IBM Watson

A developer communication tool that analyzes Github code reviews and Stack Overflow answers to determine overall sentiment | view tonedev

- Built a microservice that leveraged the IBM Watson API to analyze and calculate sentiment scores of Github code reviews and Stack Overflow comments
- Composed client-side components that reach out to microservices through an API Gateway to render sentiment analysis data

### Backpacker | Full-Stack Software Engineer | React, Express, PostgreSQL, ElephantSQL, App for tracking trails completed in Yosemite National Park | view goonies

- Worked with an inherited code base to improve functionality of the existing app
- Improved UX by centralizing weather & alerts components in a convenient dashboard view

### CookBük | Full-Stack Software Engineer | MongoDB, Express, React, Node.js, Artyom.js

A recipe storage application with a voice assistant | view cookbük

- Used Artyom.js to create a voice controlled kitchen assistant that audibly delivers recipe instructions to the user, creating a mostly hands-free UX
- Created user flow diagram, designed wireframes and used CSS to style application

## EDUCATION

**Hack Reactor**, Advanced Software Engineering Immersive | Oct 2018

**Metropolitan State University of Denver**, B.Sc., Sustainable Systems Technology | May 2016

**Community College of Aurora**, Associate of Arts | June 2011
